

VOLUME CONTENTS

Volume 1, Number 1

- i Preface
- iii Foreword
- Masamichi Yamashita,
Satoru Watanabe,
Tadaaki Mano, Nobuo Matsui,
Flemming Bonde-Petersen,
Niels Foldager,
Takatoshi Shoji and
Hideo Sudoh** 1 Telescience testbed for physiological experiments
in space
- R. Monti and R. Fortezza** 9 Teletex: the technical and operational aspects of
a microgravity experiment in telescience
- M. Z. Saghir and S. Rosenblat** 19 Numerical simulation of tetracosane and cadmium
mercury telleride in 1-*g* and 10⁻³ *g* environments
- Bernard Zappoli** 31 Response of a solid-gas growth interface to an
homogeneous time dependent acceleration field
- R. Monti** 39 Telescience: an opportunity offered to fluid science
experimentation on different microgravity platforms
- H. Lenski** 47 Advanced facilities for crystal growth
- Chen Xi Shen and
Pan Ming Xiang** 53 Review on the roles of the facilities with the
microgravity of short duration in material science
experiments
- O. Dupont, P. Queeckers,
S. Van Vaerenbergh and
J. C. Legros** 57 The AFPM-MBI experiment during Spacelab D-2
mission: results of the preparatory Texus 21 flight
- W. Hallmann and W. Ley** 65 Residual acceleration influences on drop samples
by use of an inert gas flooded drop tower
- News and Views**
- I Calendar of Microgravity-related Events
- III Announcement

Volume 1, Number 2

- iii Preface
- v Letters to the Editor
- iii

	vii In Memoriam
G. Chen and B. Roux	73 An analytical study of thermocapillary flow and surface deformations in floating zones
R. J. Hung and K. L. Shyu	81 Cryogenic liquid hydrogen reorientation activated by high frequency impulsive reverse gravity acceleration of geyser initiation
G. Antonutto, C. Capelli and P. E. di Prampero	93 Pedalling in space as a countermeasure to microgravity deconditioning
Walter E. Knabe	103 Microgravity quality analysis guidelines for automated orbital systems
Alberto Passerone	111 Measuring surface tension in space
Pg. Falciani, G. Margheri and M. Tacconi	119 A space module for dichroism spectroscopy using polarization modulated light
News and Views	
	I Calendar of Microgravity-related Events
	II Announcement

Volume 1, Number 3

	iii Preface
	v Letters to the Editor
R. J. Hung, K. L. Shyu and C. C. Lee	125 Slosh wave excitation associated with high frequency impulsive reverse gravity acceleration of geyser initiation
Z. Abdullah and M. Salcudean	135 Mathematical simulation of gas bubble transport in moving liquids in low gravity environments
A. Bewersdorff, G. P. Görler, G. Otto, K. Wittmann, L. L. Regel, V. Shalimov, C. Barta and A. Triska	143 Undercooling of alloys in an amorphous matrix
F. Falk	149 Nucleation in monotectic alloys
D. Langbein	155 Drop and bubble migration at large Reynolds and Marangoni numbers
R. Monti and R. Fortezza	163 The scientific results of the experiment on oscillatory Marangoni flow performed in telepresence on Texus 23

**J. Neubert, H. Rahmann,
W. Briegleb, K. Slenzka,
A. Schatz and B. Bromeis**

- 173 STATEX II on Spacelab Mission D-2—an overview
of the joint project "Graviperception and Neuronal
Plasticity" and preliminary pre-flight results**

I Calendar of Microgravity-related Events

Volume 1, Number 4

iii Publisher's Announcement

v In Memoriam

**L. G. Napolitano✠, A. Viviani
and R. Savino**

- 183 Similar solutions of double-diffusive dissipative
layers along free surfaces**

**A. Ye. Rednikov and
Yu. S. Ryazantsev**

- 199 On thermocapillary instability of a cooling or
heating droplet**

**E. Schmidt, P. Foth,
C. Massau and A. Kellner**

- 205 Automation and robotics implementation for
Columbus Free Flying Laboratory**

**J. Meseguer, J. M. Perales
and N. A. Bezdenejnykh**

- 215 A theoretical approach to impulsive motion of
viscous liquid bridges**

**J. R. Pietrzyk, S. C. Honkonen
and J. R. Schuster**

- 221 Fluid motion persistence in microgravity receiver
tank chilldown**

**Jaak Holemans,
John M. Cassanto,
Ted W. Moller,
Valerie A. Cassanto,
Alan Rose, Marvin Luttges,
Dennis Morrison, Paul Todd,
Robin Stewart,
Richard Z. Korszun
and Gary Deardorff**

- 235 The BIMDA Shuttle flight mission: a low cost
microgravity payload**

I Calendar of Microgravity-related Events
